

Organic Lion's Mane Mushroom Extract - UK  
57x170mm - L387

5 060018 515373 >

We grow our organic lion's mane mushrooms on a wood-rich substrate, resulting in a strong and high-quality extract rich in bio-active components. Our Organic Lion's Mane Extract Powder is made by extracting the mushroom's fruiting bodies, which have been shown to be substantially richer in active compounds and polysaccharides rich in beta-D-glucans, than extracts taken from mycelium. The valuable functional components present inside the mushroom cells are obtained using temperature-controlled technology; the innovative production procedure allows for the highest levels of active nutrients to be gathered. Our pure and concentrated Organic Lion's Mane Extract Powder has been expertly standardised to include an impressive 30% polysaccharides content as well as a significant amount of diterpenoids and sterols.

**Best before end:** See base.  
**Storage:** Store in a cool, dry place away from direct sunlight.  
Refrigeration is not required.

**Suitable for vegetarians and vegans. Naturally free from gluten and wheat.**  
NO ARTIFICIAL COLOURS, PRESERVATIVES, SWEETENERS OR FILLERS

# ORGANIC LION'S MANE

## MUSHROOM EXTRACT

Standardised to 30% polysaccharides	From 100% Fruiting Bodies
No mycelium No grain or fillers	50g <sup>e</sup>

# KIKI HEALTH

**Suggested use:**  
Add around ½ tsp or 1g to smoothies, hot drinks, porridge, cereals, sprinkle over food or just add to hot water.

**Ingredients:**  
100% Organic Lion's Mane (*Hericium erinaceus*) Mushroom Extract from fruiting bodies.

**Nutrition:**  
Typical Values per 100g - **Energy** 1586kJ / 379Kcal, **Fat** 0.5g, *of which saturates* 0.1g, **Carbohydrates** 77g, *of which sugars* 41g, **Protein** 16.2g, **Salt** 0g.

**Botanical Information:**  
Beta-glucan rich polysaccharides 30%

Our extracts are produced entirely from the fruiting bodies of mushrooms (not from mycelium). The fruiting bodies are grown on wood-rich substrate (not on grain) and so are loaded with beta-glucan-rich polysaccharides and other precious functional ingredients.
