Q&Q

---- QUESTIONS & QUESTIONS ----

Who was it that said a question is the capsule for its own answer? No idea, but wouldn't it be great for the evolution of our collective knowledge if answers to the most curious questions came in the form of a new, curious question? We don't know, what do you think?

What's the point of declaring your CO₂e on your packages when so few others are doing it?

What's the point of the others not doing it?
