### HOW TO RUN THE PERFECT BATH

- 1 Run a warm bath (37-40°C is ideal)
- 2 Add 1 cup of bath salt to create a fragrant, mineral-infused bath
- 3 Dim the lights to create a soothing, cosy atmosphere
- 4 Relax & enjoy for at least 20 minutes

#### PRECAUTIONS, READ BEFORE USE:

Do not use if pregnant or breastfeeding. For external use only. Do not use on broken skin. Avoid contact with eyes. If irritation occurs, stop bathing and rinse with water. If it persists, seek medical advice. Keep out of the reach of children.

Keep sealed in a cool, dry place as over time salt can attract moisture. This is a natural product, so there can be variation in the colour and texture.

Himalayan salt is a natural mineral rock salt, so dissolves slowly and can leave insoluble grains. For comfortable bathing, we suggest adding the salt to dissolve at the foot-end of the bath only. Take care with delicate bath surfaces and rinse bath well after use.
