

ORG. COCONUT CHARCOAL

90 CAPSULES / 2000mg

Activated Coconut Charcoal 2000mg - 90 Capsules - Made from Thai Coconut Shells - for Bloating & Gas, Digestion & Flatulence Natural Support (30 Day Supply) - by Alpha01

PRODUCT DESCRIPTION

When consumed in doses of 1,000mg before and after a meal, Activated Charcoal can help to reduce the excessive flatulence that can arise after eating certain problem foods. Made entirely from organic coconut shells, this gastrointestinal support formula contains Activated Charcoal that is sustainable, environmentally friendly and 100% vegan.

FORMULA OVERVIEW

Offering high surface area activated charcoal derived from coconuts, this supplement provides a simple way to explore an ancient ingredient. Steam activated from organic coconut shells, the charcoal is finely milled and delivers 2000 mg per three capsule serving. Prepared without fillers or binders, it retains its natural porous texture and deep black colour. The powder is encapsulated in a vegan hypromellose shell, ensuring a clean, plant based profile with no synthetic additives. One serving equals three capsules, and the resealable pouch contains 30 servings, supporting neat storage and on the go convenience. Integrating these capsules into a mindful routine is effortless. Simply swallow with water, avoiding the mess of loose charcoal powders. Made in the EU from non-GMO ingredients under GMP standards, this product offers a modern, intentional way to include activated charcoal in your wellness practice.
