Address:	Acipreste – 2461-601 Alcobaça
Phone.:	262 505550
Fax:	262 505557
E-mail:	sumo.fruta@copa.pt or c.raimundo@copa.pt
Technical manager:	Mrs Raimundo Carla - Quality manager
Product:	Natural fruit and vegetables juice with calcium citrate malate. The juice is in bottles of 250 ml, without addition of water, dyes or preservatives.
Description:	The fresh fruits are previously chosen, washed, selected, extracted, the result of the extraction is the juice. Then the juice is homogenized, filled, capped, labeled and cold stabilized by HPP ("High Pressure Product").
Origin of raw materials:	Portugal, Spain, South Africa (Subject to change during the year)
Qualitative and Quantitative formulation:	Celery 92,73%, Lemon 6%, Spinach 1%, Calcium Citrate Malate 0,27% and antioxidant: ascorbic acid.
Organoleptic	
Colour:	Brownish green (subject to fluctuations during their useful life and throughout the year because they are fresh and seasonal raw materials and because there is a need to use raw materials from different sources)
Smell and Flavour:	Celery and lemon (sensory analysis) (subject to fluctuations during useful life and throughout the year because they are fresh and seasonal raw materials and because there is a need to use raw materials from different sources)
Physical-chemical	
Net amount:	250 ml (measuring with calibrated test tube)
pH:	Under evaluation
°Brix:	Under evaluation
Lead, cadmium content:	The product complies with the limits established in accordance with the legislation in force, being regularly monitored.
Microbiological:	Enumeration of microorganisms at 30°C – $\leq 1,0 \times 10^6$ ufc / mL Moulds - $\leq 1,0 \times 10^3$ ufc / mL Yeasts - $\leq 1,0 \times 10^5$ ufc / mL Enumeration of <i>E. coli</i> - $\leq 1,0 \times 10^2$ ufc / mL Detection of <i>Salmonella spp.</i> - Not detected Detection of <i>Listeria monocytogenes</i> – Not detected
Allergens:	Contain Celery
GMOs	Does not contain
Suitable for:	NA

Product Technical Specification

Daily Celery with Calcium

Nutritional values (100 ml)	Theoretical
Energetic value	30 / 7 kJ/kcal
Lipids	0,2 g
of which saturates	0,0 g
Carbohydrate	0,9 g
of which sugars	0,9 g
Protein	0,5 g
Salt	0,14 g
Calcium	85,5 mg
Possible Claims (Subject to Validation with External Analysis):	High in calcium (Subject to Validation with External Analysis).
Legal name:	Cold-press Celery with lemon and spinach juice stabilized by High pressure process (HPP)
Trade name:	Daily Celery
Packing (reference / capacity):	The product is hermetically packaged in 50% R-PET bottles.
Primary	G. Weight $\pm$ _ g; L x W x H = _ x _ x _ (500 ml); G. Weight $\pm$ _ g; L x W x H = _ x _ x _ (250 ml);
Secondary:	(Packs of 6 units) G. Weight $\pm$ _ g; L x W x H = _ x _ x _ (250 ml); (Packs of 6 units) G. Weight $\pm$ _ g; L x W x H = _ x _ x _ (500 ml);
Minimum allowable quantity for production (L):	1000 L or 500 L by reference (capacity)
Instructions for use:	Always keep chilled. After opening, consume within 48 hours.
Expiration date:	Shelf life is 45 days, kept at refrigerated temperatures (maximum 8°C).
Batch Coding:	Day / Month / Year in sequential numbers from 1 to 99.
Distribution and storage conditions:	Distribution carried out at cold temperatures (maximum 8°C). Always keep chilled.
