LAMBERTS®

THE PROFESSIONAL RANGE

Zincatest®

Zinc in solution

Each 5ml provides
Zinc 15mg

Zinc contributes
to the normal function
of the immune system

FOOD SUPPLEMENT
100ml

NUTRITION INFORMATION

Typically per 5ml liquid: %NRV*

Zinc (as Zinc Sulphate)	15mg	150
*NRV = Nutrient Reference Value		
INGREDIENTS: Zinc Sulphate Hepta Hydrate, Purified Water.		
Food supplements should not replace a balanced diet and healthy lifestyle.		
DIRECTIONS: This product may be used in one of two ways. (i) As a food supplement: Take one 5ml spoonful of Zincatest® daily with a meal, or as directed by a practitioner or pharmacist. You may wish to dilute this liquid in water or orange juice. (ii) As a taste test to indicate zinc status: As a taste test to indicate zinc status: Take the test at least one hour after food or drink. Simply add 5ml of Zincatest® solution to 60ml of water and immediately swirl		

one 5ml spoonful of the diluted mixture around in the mouth for 10 seconds (this mixture can then be swallowed or spat out). The taste sensation that results from this test provides an indication of zinc status: **1.** Tasteless like water: **Low.** **2.** Slightly dry, furry, mineral-like or even sweet taste develops after a few seconds: **Marginally Low.** **3.** Definite taste, which intensifies with time: **Marginally Positive.**

4. Strong unpleasant taste noticed immediately: **Positive.** If response corresponds to 1 or 2 above, use a zinc supplement or Zincatest® until response improves to 3 or 4. A 3 to 6 month course may be necessary. A fresh solution should be made up each time.

Do not exceed recommended daily dose.
