

FOLDING ILASH COMB

ITEM CODE 1054-R

Finely spaced, gold plated metal teeth glide through lashes to remove excess mascara, leaving just the right amount on your lashes.

The Folding iLashcomb helps achieve the look of defined, clump-free lashes.

Comb folds closed to keep tool clean and protected.

A makeup bag staple, the Folding iLashcomb glides through lashes to remove excess mascara, leaving them separated, defined and clump-free.

RRP
£12.00

HOW TO USE

For best results, comb lashes immediately with the Folding iLashcomb after applying your favourite mascara.

While still wet with mascara, comb your lashes carefully, moving up, out and away from eyes.

If applying more than one coat, comb lashes after each additional application.

CAUTION: Make sure to always look in a mirror when using this eyelash comb. The teeth of the comb are sharp.
