

125ml Liquid Chlorophyll / label size 52x150mm L256

5 060018 513942 >

Chlorophyll is a green pigment produced naturally by plants and algae and gives them a green colour characteristic. It is the most significant and nutritious element of most green foods and provides them with their distinctive green colour. It assists plants to convert sunlight into energy and is rich in a variety of essential nutrients. Our chlorophyll comes in a bio-available liquid form and is an entirely natural, plant-based liquid extracted solely from alfalfa grass without preservatives or artificial colouring and thus has a vibrant, natural taste.

Best Before: See base. **Storage:** Store in a cool, dry place below 25°C away from direct sunlight. Once opened, store in the refrigerator and consume within 2 weeks. Ensure cap is tightly closed to maintain freshness.

Caution: Product may stain

Food supplements should not be used as a substitute for a varied diet. Keep out of reach of children. Do not exceed the recommended daily dose.

Suitable for vegetarians and vegans. Naturally free from gluten and wheat. NO ARTIFICIAL COLOURS, PRESERVATIVES, SWEETENERS OR FILLERS
