

PEPPERMINT OIL

180 SOFTGELS / 200mg

Cold-Pressed Peppermint Oil 200mg - 180 Softgels - Fast Absorbing & Easy to Digest - 100% Natural Peppermint Oil Digestive Supplement (6 Months Supply) by Alpha01

PRODUCT DESCRIPTION

Peppermint is a hybrid mint that is a cross between spearmint and watermint. Its aromatic leaves contain a multi-purpose oil that has a variety of nutritional benefits. By utilising the whole plant, our full spectrum oil contains all of peppermint leaf's naturally occurring compounds in their most pure and potent form.

FORMULA OVERVIEW

Distilled from hybrid mint leaves, this peppermint oil supplement offers a crisp, refreshing aroma in a controlled, easy to take form. Each softgel contains 200 mg of cold pressed peppermint oil, standardised to 30% menthol to ensure consistent flavour and potency. The oil is produced without blending or additives, preserving its clear, natural character, and is encased in a gelatin softgel with glycerin and purified water for a smooth swallow. One softgel counts as a serving, and each resealable, recyclable pouch holds 180 servings, keeping doses precise and uncomplicated. The softgel format avoids the strong taste and volatility of liquid peppermint oil, making it simple to integrate into daily life. Made in the EU using non GMO ingredients under GMP conditions, this product offers a clean, trustworthy way to enjoy peppermint oil that reflects Alpha01's clean label, plant-centred philosophy.

- ✓ Form - Softgels
