

LoofCo is our range of hand-crafted pads, brushes, cloths and soaps for home cleaning and personal care made from natural plant fibres, mainly loofah and coconut. This LoofCo Bottle Brush is designed for cleaning bottles, teapots, juicers, dishwasher filters and more. Ideal for cleaning jars and tins prior to recycling.

To Use: Rinse thoroughly before first use. Immerse in warm water and use with washing-up liquid or LoofCo Washing-Up Soap. After use, rinse well and hang to dry from the string loop. Your LoofCo Bottle Brush will last for many months in normal use and when worn out can be recycled. Made in Sri Lanka from coir coconut fibre, galvanised metal wire & rubberwood. Coir is the fibrous material found beneath the matured brown coconut husk. Its unique properties make it ideal for making brushes. Our rubberwood is from rubber trees that are no longer of any use for extracting rubber. Using the traditional skills of small cottage industry producers, coconut husks & fibres are turned into LoofCo products.
