

LoofCo is our hand-crafted cloths and home cleaning care made from plant fibres, and coconut. They have been used for

as natural skin exfoliators & can replace synthetic plastic exfoliating gloves and sponges.

range of pads, brushes, soaps for and personal care from natural mainly loofah. Loofahs have been used for generations

**To Use:** This LoofCo Bath-Time Loofah has been flattened for transport to save space and may appear abrasive in this state. When immersed in water it will swell up and become a spongy, soft pad. Rinse thoroughly before first use. Use on damp skin with soap or gel in a gentle circular motion to exfoliate and invigorate, leaving fresh, clean and soft skin. After use, rinse, squeeze out excess water and hang to dry from the cotton loop. Your LoofCo Bath-Time Loofah will last for months in normal use and when worn out can be composted.

Made in Egypt from Loofah (*Luffa Aegyptiaca*) and cotton. Loofahs are from the cucumber family. Our loofahs are carefully grown, harvested, peeled, washed, de-seeded and sun-dried. Occasionally some seeds may remain. Using traditional skills, the dried loofahs are turned into LoofCo products. See the whole range of sustainable, plastic-free home cleaning and personal care products at [www.loofco.co.uk](http://www.loofco.co.uk).
