

LoofCo is our range of hand-crafted pads, brushes, cloths and soaps for home cleaning and personal care made from natural plant fibres, mainly loofah and coconut. This LoofCo Water Bottle Brush is designed for easy cleaning of reusable water and drinks bottles. It will fit into the neck of a standard refillable water bottle and reach down to the base of the bottle for thorough cleaning.

**To Use:** Rinse thoroughly before first use. Immerse in warm water and use with washing-up liquid or LoofCo Washing-Up Soap. After use, rinse & hang to dry from the string loop. Your LoofCo Water Bottle Brush is long lasting & when worn out can be recycled.

Made in Sri Lanka from coir coconut fibre, galvanised metal wire & rubberwood. Coir is the fibrous material found beneath the matured brown coconut husk. Its unique properties make it ideal for making brushes. Our rubberwood is from rubber trees that are no longer of any use for extracting rubber. Using the traditional skills of small cottage industry producers, these raw materials are turned into LoofCo products.
