0726367913707

Packaging: Glass/Aluminium Lid

Product features: This is Sol de Ibiza Magic Sun Oil.

Created with an extraordinary formula that merges the powerful protection of zinc oxide with the revitalizing powers of ethereal oils and flower extracts.

This Multi-Purpose zinc lotion provides broad spectrum light protection (UVA and UVB) every hour of the day. It will prepare your skin for sun exposure, protect it from sun damage and repair it after enjoying under the sunlight.

Regenerates your skin and prevents blemishes while protecting it from sun, wind and pollution. Plus, it has anti-inflammatory and antibacterial properties.

Let yourself be carried away to a summer day on Ibiza, with its loving smell of Mediterranean plants and the caring effects of Grape Seed Oil, Calendula Flower extract, Argan oil, Ricinus oil and Jojoba oil - issued from organic agriculture.

Thanks to the non nano zinc oxide, our products go beyond mere protection. Besides shielding from harmful rays, they boast antimicrobial and soothing properties, reducing redness, inflammation, and restoring your skin's natural balance.

How to apply: First things first, remember to shake. To prepare, protect and repair: apply onto dry skin. Gently massage your face and body until well absorbed. Feel the vitamins, antioxidants and moisturizing activate.

Apply after showering for improved skin repair. We recommend avoiding direct exposure during the hottest hours of the day. If you have to, please use higher protection, especially for children.

For a better experience, smile throughout. Enjoy the sun!

Sol de Ibiza Magic Sun Oil works on your whole body. It's the safest for your skin and the planet.

Useful recommendations: Cosmetic product—External use

For children above 3 years of age

Certifications CAAE COSMOS ORGANIC

Tests carried out on the product:

- Challenge test (Stability)
- Patch test (Dermatological test on sensitive skin)
- Nickel test (< 1 PPM)
- Determination of the sun protection factor (SPF)
- In vitro determination of the photoprotection (UVA) of a solar product
