

Organic mushroom coffee - UK
63x185mm - L394

Our Organic Mushroom Coffee is a blend of organic 100% Arabica coffee and functional certified organic mushroom extracts: Shiitake, Lion's Mane and Reishi mushrooms, all of which are extracted from the fruiting bodies. All mushrooms have been grown as nature intended, on nutrient-rich wood or vegan substrate yielding powerful and high-quality extracts which have been standardised to 30% beta-D-glucans polysaccharides, the most important compound in mushrooms. We use temperature-controlled technology to obtain the valuable functional components found inside the mushroom cells; the advanced production method supports the highest levels of active nutrients to be captured, resulting in full spectrum extracts. Our Organic Mushroom Coffee Blend is perfect for coffee lovers looking for something extra from their daily ritual.

Botanical Information

Beta-glucan rich polysaccharides 30%
Our extracts are produced entirely from the fruiting bodies of mushrooms (not from mycelium). The fruiting bodies are grown on wood-rich substrate (not on grain) and so are loaded with beta-glucan-rich polysaccharides and other precious functional ingredients.
