

New cat pouches

For years, people asked Edgard & Cooper to make pouches. And like a cat, we ignored them. We wanted to perfect the food, as well as the packaging. And now we have.

the perfect recipes

5 reasons why these **new recipes** are what a cat's paw-twitching dreams are made of:

- It's all about the **gravy**. Extra paw-lickingly delicious gravy for more enjoyment and hydration.
- **Real meat and fish** in every recipe (sounds obvious? Isn't.).
- **Grain-free** recipes, made with **natural ingredients**.
- Added fibre and prebiotics to support **healthy digestion**.
- **Sustainably sourced** fish (as if you needed another reason).

In even perfecter packaging

'WOWWWW'

Cat parents fall head over paws for our design on shelf*. But the real magic? They still love it when it's empty. Our pouches aren't just pretty faces, they're made from a single-layer mono-PP and **designed for recycling**.
