ORGANIC ACAI BERRY POWDER

Acai berry is a small purple fruit native to the Amazon rainforest. Our acai is typically wild-harvested by cooperatives and we have chosen the Euterpe Precatoria variety due to its higher antioxidant count and lower fat level than standard acai (Euterpe Oleracea). In fact, this type of acai berry has one of the highest ORAC values (Oxygen Radical Absorption Capacity) of any food.

OUR SHARED EARTH INITIATIVE:

We search the world for the most nutritious foods, source from producers who use organic methods and guarantee that at least 10% of our profits each year support social and environmental projects around the world.

WHY NOT TRY ACAI SORBET?

- 1 tbsp acai berry powder
- 1 large frozen banana (chopped)
- 1 tsp lemon juice
- 1 tsp maple syrup
- 4 tbsp coconut milk

Mix all of the ingredients, except the coconut milk, in a blender for 30 seconds. Then gradually add the milk and blend until smooth.

Pour into a plastic container, cover and freeze. Stir after 1 hour.

Serve after a further 2 hours and enjoy!
