

BALMONDS

redefining natural skincare

Balmonds Hair & Scalp Oil: an all-natural omega-rich conditioning oil

with tea tree, rosemary + nettle

The Balmonds Hair & Scalp Oil USP

A blend of nourishing oils to moisturise, condition and soften itchy, flaky scalps, and promote strong, healthy hair.

Balmonds Hair & Scalp Oil was formulated to nourish and hydrate the scalp, supporting hair follicles, feeding dry or depleted skin with essential fatty acids, and rebalancing microbial overgrowth. The oil softens flakes and scales, and reduces itchiness, and is not only rich in rosemary, the oil of the moment, but also contains omega-rich plant-based extracts to boost the scalp's resilience, hydration, health and glossiness! It can be used as a leave-in beard or locs oil, or to refresh and gloss up textured and curly hair, or as a conditioning scalp oil which is designed to be massaged into the scalp, left on for an hour (or overnight) and washed out with a gentle shampoo.

Balmonds Hair & Scalp Oil is 100% natural, cruelty-free and Vegan Society certified, and has been dermatologist approved as suitable for use on atopic/eczema-prone skin.

Key Ingredients

Rosemary: an invigorating herb to improve circulation and support healthy hair growth

Tea Tree: a powerful and refreshing natural antimicrobial to cleanse and protect

Borage: highly rich in essential fatty acid GLA (gamma-linolenic acid) for skin health

Nettle: nutrient-rich natural anti-inflammatory oil to reduce itchiness

Hemp: exceptionally rich in omegas 3 & 6 to nourish and moisturise dehydrated skin

50 ml
RRP £16
