

INTENSE HYDRATING MASK

EVOLVE ORGANIC BEAUTY

RRP: £28

LAUNCHING ON: 07/10/2024

Hello hydration! Quench thirsty skin with the Intense Hydrating Face Mask, Evolve's 100% natural solution to revive skin in just 10 minutes.

This rich and creamy pale-pink moisturising mask is formulated with a potent blend of four bioactives to deliver instant and long-lasting results to hydrate, nourish, smooth and soothe skin, bringing it back to life naturally.

The ultimate hydration dream team? The skin-reviving Resurrection Plant Molecule Glycoin, works fast, reinvigorating and restoring skin for rapid renewal; long-lasting multi-molecular Hyaluronic Acid and Pentavitin store water like a desert oasis, while smoothing Salt Lake Bioactive balances and replenishes, sealing moisture in.

Intense Hydrating Face Mask is ultra versatile and can be used overnight, as tissue off treatment for 10 minutes, as an in-flight treatment to keep skin hydrated in transit and also as an intensely moisturising hand and foot mask.

Dermatologically tested on sensitive skin.

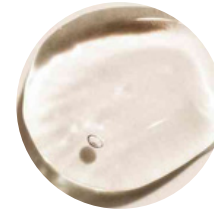

KEY INGREDIENTS

RESSURECTION PLANT MOLECULE GLYCOIN

Skin-quenching, natural Resurrection Plant Molecule instantly and intensely hydrates parched skin by 49.5% in two hours*. Over time this powerful, adaptogenic skin hero boosts collagen and elastin production, reviving and restoring the skin's appearance while continuing to supercharge hydration by 24%.

**From an in vivo study with 20 participants tested at 2, 4 and 8 hours.*

HYALURONIC ACID

Multi-molecular weight Hyaluronic Acid delivers hydration to every layer of the skin for long-lasting results. Known to hold 1000 times its weight in moisture, this ultra-hydrating molecule leaves skin looking fresh, dewy and visibly plumped.

SALT LAKE BIOACTIVE

Originating from the salt-loving bacteria of Alicante's pink salt lakes, this naturally fermented potent bioactive, balances and restores the hydrolipid layer of the skin, sealing moisture in, for healthier and more radiant skin.

PENTAVITIN

Naturally derived from maize kernels, Pentavitin (also known as Saccharide isomerase) instantly and continuously hydrates the skin for up to 72 hours. Acting like a magnet, it traps moisture on the skin's surface for hydration relief and comfort that lasts.
