

We believe that small, daily habits can make a real difference in the long term!

In Japan, having vinegar daily is a habit handed down through the generations for centuries. This ritual is just as important today as it's always been.

We use 200 years of expertise in crafting vinegar in Japan to blend unpasteurised apple cider vinegar and 100% natural fruit juice to deliver the right balance of tangy and sweet.

Our vinegar includes 'The Mother' which is the strands of protein present within the raw apple cider vinegar.

"Beautiful mind & spirit". This is what the iconic cherry blossom Sakura means in the Japanese language of flowers. Sakura is also linked to ephemeral nature and the beauty of life which we feel inspired by.

To drink, dilute to taste with still, sparkling or warm water. We recommend you dilute 1 part (20ml) Oxi with 9 parts of water.

Sprinkle Oxi directly onto salads for a tangy burst of flavor.

Add a delicious, zesty flavor to your marinade and healthy ingredients.

Try Oxi in your favorite cocktail. It's soon become your secret ingredient. For more suggestions, visit www.oxivinegar.co.uk
