

TART CHERRY EXTRACT

90 CAPSULES / 15,000mg

Montmorency Cherry 15,000mg – Standardised 5% Anthocyanins Tart Cherry Extract – 90 Vegan Capsules – by Alpha01

PRODUCT DESCRIPTION

Vastly superior to regular cherries, the Montmorency Cherry is a special type of sour cherry that has become popular among athletes and gym enthusiasts. Each capsule contains the botanical equivalent of 15,000mg (15 grams) of Montmorency Tart Cherry, providing 12.5mg of naturally-occurring anthocyanins.

FORMULA OVERVIEW

Capturing the vibrant red of Montmorency cherries, this high strength extract provides a potent dose of tart cherry in a minimal form. Each capsule contains a 60:1 extract equivalent to 15,000 mg of fruit and standardised to 5% anthocyanins, retaining the berries' rich colour and tangy flavour. The extract is concentrated gently to preserve its botanical character, then combined with organic brown rice flour and enclosed in a plant based hypromellose shell for a clean profile. One capsule is a full serving, and the resealable pouch offers 90 servings, keeping doses precise and the contents fresh. This taste free format integrates easily into daily rituals, offering the benefits of tart cherry without the need for juices or concentrates. Made in the EU with non-GMO ingredients and produced under GMP standards, it exemplifies Alpha01's commitment to potent, plant-led nutrition.
