

## Vitamin C supports the immune system

'Vitamin C supports the immune system by enhancing the function of various immune cells, including neutrophils, lymphocytes, and phagocytes, and it helps maintain the integrity of physical barriers such as skin and mucous membranes (1)'

Nutritional Information	Av. per 0.5ml	% EC NRV*
Vitamin C (Ascorbic acid)	25 mg	31

\*NRV = Nutrient Reference Value mg =milligram

### Ingredients list

Vitamin C (as ascorbic acid), glycerol, purified water.

### Customer review

Easy to give the kids! Especially if kids are fussy, I would place in their drink and they would never notice!
