

LoofCo Washing-Up Slim Pad 4-Pack

Back of Pack

LoofCo is our range of hand-crafted pads, brushes, cloths & soaps for home cleaning & personal care made from natural plant fibres, mainly loofah & coconut. The **LoofCo** Washing-Up Slim-Pad is a generous single layer of loofah plant that is perfect for dishwashing due to its flexible aerated structure.

To Use: **LoofCo** Washing-Up Slim-Pads are flattened for transport to save space and may appear abrasive in this state. When immersed in water they will become soft, flexible, and spongy. Use in warm water with washing-up liquid or **LoofCo** Washing-Up Soap. Soak and remove baked-on food first. Bends around glassware and cutlery, gently cleans non-stick pans and wipes work surfaces. After use, squeeze out excess water, shake out any food particles & hang to dry from the cotton loop. Your **LoofCo** Washing-Up Slim-Pad will last for months in normal use and when worn out can be

composted. As the fruit of a plant, size, colour and texture may vary.
