

Magnesium Water Energy

Unlocks the power of natural and sustained oxygenated energy production

Contains 180mg of elemental magnesium per can (250ml) – 48% NRV

Non-carbonated for absolute refreshment with a great-tasting electric blend of rhubarb and pomegranate

Low calorie. Low sugar. No artificial sweeteners

Magnesium Water – Harder working water

Magnesium Water - Energy unlocks the power of natural and sustained oxygenated energy production. The energising blend has been scientifically formulated to support the recovery of magnesium levels lost through mental and physical exertion, experienced during the stresses of a busy day.

Delivering 180mg of elemental magnesium, natural nitrates and essential B-vitamins, the unique electrolyte blend of magnesium glycinate, magnesium citrate and Irish sea minerals has been formulated to maximise absorption–energising every cell in the body.

Magnesium source

BetterYou Magnesium Water consists of a unique triple-blend of magnesium sources to maximise absorption and effectiveness in the body, including:

Magnesium Citrate

Considered one of the most absorbable forms of magnesium within the gut, when compared to more common forms such as oxide. Magnesium citrate is a salt containing magnesium and citrate ion in a 1:1 ratio. It's highly soluble and bioavailable, making it an ideal form to supplement in your diet. Our magnesium citrate is sourced from naturally derived marine magnesium.

Magnesium Glycinate

Bonded by two glycine molecules, a component of protein, magnesium glycinate is best known for its use in regulating neuromuscular contractions, supporting muscle recovery. Again, a highly bioavailable and soluble form of magnesium, it acts quickly in the body to restore lost magnesium through daily stresses.

Irish sea minerals

To enhance the formulation further, we've included a natural magnesium source produced from seawater from the Irish Sea. The marine multi-mineral complex is high in magnesium and rich in 72 trace-minerals, including calcium, zinc and potassium ensuring an exceptional electrolyte balance.

Ingredients

Water, agave nectar, 5% beetroot juice from concentrate, acid; tartaric acid, natural flavourings, magnesium citrate, magnesium glycinate, B vitamin blend (niacin, vitamin B6, biotin, vitamin B12).

Advisory information

Supplements should not replace a healthy diet and exercise.

Planet-friendly product

This can is crafted from 100% recyclable aluminium, ensuring infinite recyclability without compromising material quality. This product is free from any palm oil and palm oil derivatives.
