

LoofCo is our range of hand-crafted pads, brushes, cloths and soaps for home cleaning and personal care made from natural plant fibres, mainly loofah and coconut. LoofCo Bathroom Cleaning Pads are generous large layers of loofah stitched together for extra scrubbing power over a wide surface area, ideal for making quick work of cleaning baths, tiles, sinks, shower trays and enclosures. To Use: This LoofCo Bathroom Cleaning Pad has been flattened for transport to save space and may appear abrasive in this state. When immersed in water it will swell up and become a spongy, flexible yet robust pad. Use with warm water and cleaning product. After use rinse well, squeeze out excess water and hang to dry from the cotton loop. Your LoofCo Bathroom Cleaning Pad will last for months in normal use and when worn out can be composted.

Made in Egypt from loofah (Luffa Aegyptiaca) and cotton. Loofahs are from the cucumber family. Our loofahs are carefully grown, harvested, peeled, washed, de-seeded and sun-dried. Occasionally some seeds may remain. Using traditional skills, the dried loofahs are turned into LoofCo products. See the whole range of sustainable, plastic-free home cleaning and personal care products at www.loofco.co.uk.
