Hair Volume™ Post Menopause

ANNURCA APPLES

Annurca apples are probably the oldest known apple variety in the world. They grow in volcanic soil in Southern Italy, in an area with a radius of 50 km just north of Naples. The apples are small, juicy and sweet with a little acid and extra high levels of procyanidins. They keep their flavour, aroma and quality for a very long time. The extract from the Annurca apple is the secret behind the production of the Hair Volume™ tablet.

THE PROCESS

The annurca apples are picked and placed on beds of reeds, where they slowly mature. Every four days, the apples are turned by hand until they are perfectly mature and ready to turn into a fine extract with a natural content of procyanidin.

Hair Volume™ Post Menopause

Can help maintain visibly thicker,
more beautiful and shinier hair

Vitamin B6 contributes to the regulation of
hormonal activity. Horsetail extract promotes
hair growth and strengthening.

MANUFACTURED IN SWEDEN

Annurca apple, millet,
horsetail, pine bark, amino acids,
vitamins and minerals

Food supplement • 30 tablets

INGREDIENTS

Bulking agent (micro-crystalline cellulose, cross-linked sodium carboxymethyl cellulose), apple extract (*Malus domestica* Borkh.), millet extract (*Panicum miliaceum* L.), horsetail extract (*Equisetum arvense* L.), maritime pine bark extract (*Pinus pinaster* Aiton), L-cysteine, L-methionine, calcium-D-pantothenate, glazing agents (hydroxypropyl methyl cellulose, magnesium salts of vegetable fatty acids, glycerol), methylcobalamin, zinc malate, pyridoxine hydrochloride, D-biotin, copper sulfate, anti-caking agent (silicon dioxide), pteroylmonoglutamic acid.

THICKER, MORE BEAUTIFUL AND SHINIER HAIR

Hair Volume™ is a clinically documented hair tablet that gives visibly thicker, more beautiful and shinier hair. With increasing age, many experience changes in hormonal activity affecting the quality of their hair. Hair Volume™ Post Menopause is based on an annurca apple extract with natural procyanidin B2. The tablet contains the same ingredients as the original Hair Volume™ plus B vitamins and maritime pine bark. Hair Volume™ Post Menopause tablets have a high content of vitamin B6, which contributes to regulating hormone activity. The content of zinc and biotin helps to maintain normal hair and skin. The content of horsetail extract promotes hair growth and strengthening. Horsetail and zinc also contribute to maintaining normal nails. Copper contributes to a normal pigmentation of the hair.

RECOMMENDED DAILY DOSE

Take 1 tablet daily in combination with a meal. Food supplements are intended to supplement the diet and should not be a substitute for a varied diet or healthy lifestyle. Do not exceed the stated dose. **Caution:** Seek professional advice before using if you are pregnant or breastfeeding. **Warnings:** Not suitable for children under 12 years of age. Do not use if the blister packaging (inner foil) is broken or tampered with. Keep out of reach of children.

CONTENT PER DAILY INTAKE	pr tabl.	%NRV*
Apple extract (<i>Malus domestica</i> Borkh.) with natural content of procyanidin-B2	300 mg	-
