

# BALMONDS

redefining natural skincare

## Balmonds Super 7 Serum: an extra-gentle serum for sensitive skin

with niacinimide, hyaluronic acid, rosehip + sea buckthorn

### The Super 7 Serum USP

Super 7 Serum features **seven hero ingredients** to boost skin health and resilience, giving dry, fragile, or depleted skin a daily dose of goodness. Super 7's lightweight, oil-free, non-sticky formula is easily absorbed, and is designed to be applied after cleansing and before using your favourite moisturiser to seal in moisture and nutrients. The serum is 99% natural and adheres to COSMOS standards.

Super 7 Serum has been formulated to create an exceptionally gentle, allergy-friendly product, to ensure the product is suitable for as many of Balmonds' extra-sensitive customers as possible! It contains **no nuts, no paraffin, no parfum, no soya, no coconut, no lanolin, no gluten, no dairy, no essential oils, no alcohol, no EU 26 fragrances**, or ingredients recognised by experts as likely to be allergenic. This makes Super 7 the perfect choice as a restorative serum for even the most reactive skin, including those prone to breakouts, allergies, eczema, psoriasis, or rosacea.

### The Super 7: Seven Heroes For Sensitive Skin

**Niacinamide:** to balance, brighten, and reduce inflammation

**Epsom Salt:** to soothe itchiness & reduce flares

**Inulin:** a natural prebiotic to promote a healthy skin biome

**Hyaluronic Acid:** to support elasticity and hydration, keeping skin soft & supple

**Rosehip:** rich in natural vitamin A, to support the repair & regeneration of skin cells

**Sea Buckthorn:** rich in vitamins C & E, Omega 7 and linoleic acid to fortify the skin barrier

**Bladderwrack:** anti-inflammatory, nutrient-rich, improves collagen synthesis & skin cell turnover

30ml  
RRP £20
